

TRAINING IN DEVELOPMENT OF INFRASTRUCTURE INVESTMENT PROJECTS

This training has been developed within the project "Local Leaders in South-East Europe: Lead for Change (LL SEE)", implemented by the Network of Associations of Local Authorities of South-East Europe (NALAS), its member Local Government Associations (LGAs) and the GIZ, to enhance leadership and management competences of local decision makers and managers from Municipalities (LGs) and Public Utility Companies (PUCs) for planning and implementation of investment projects in the field of municipal WSS infrastructure.

Overall Training Objectives

- Participants are able to analyse the current situation, and
- Participants are able to elaborate the key elements of future infrastructure investment projects.

Training Topics

- Key elements in developing project proposals funded by International Finance Institutions (IFIs)
- Project context analysis
- Defining project goal, objectives, results, indicators
- Stakeholder mapping
- Development of project activities
- Identification of project risks and assumptions
- Dynamic plan of investment projects: phases, milestones
- Project budgeting and financial analysis

Target group

- **LGs:** Upper management (General Secretariat, Head of Finance, Head of HR, etc.), and
- **PUCs:** Upper management (members of the Supervisory Board, General Management, Executive Managers of the technical, financial and legal sectors, Head of PIU)
