

PANEL OF MAYORS: Challenges and impacts of refugee crisis
for Local Governments in South East Europe 2.10.2015, Zagreb

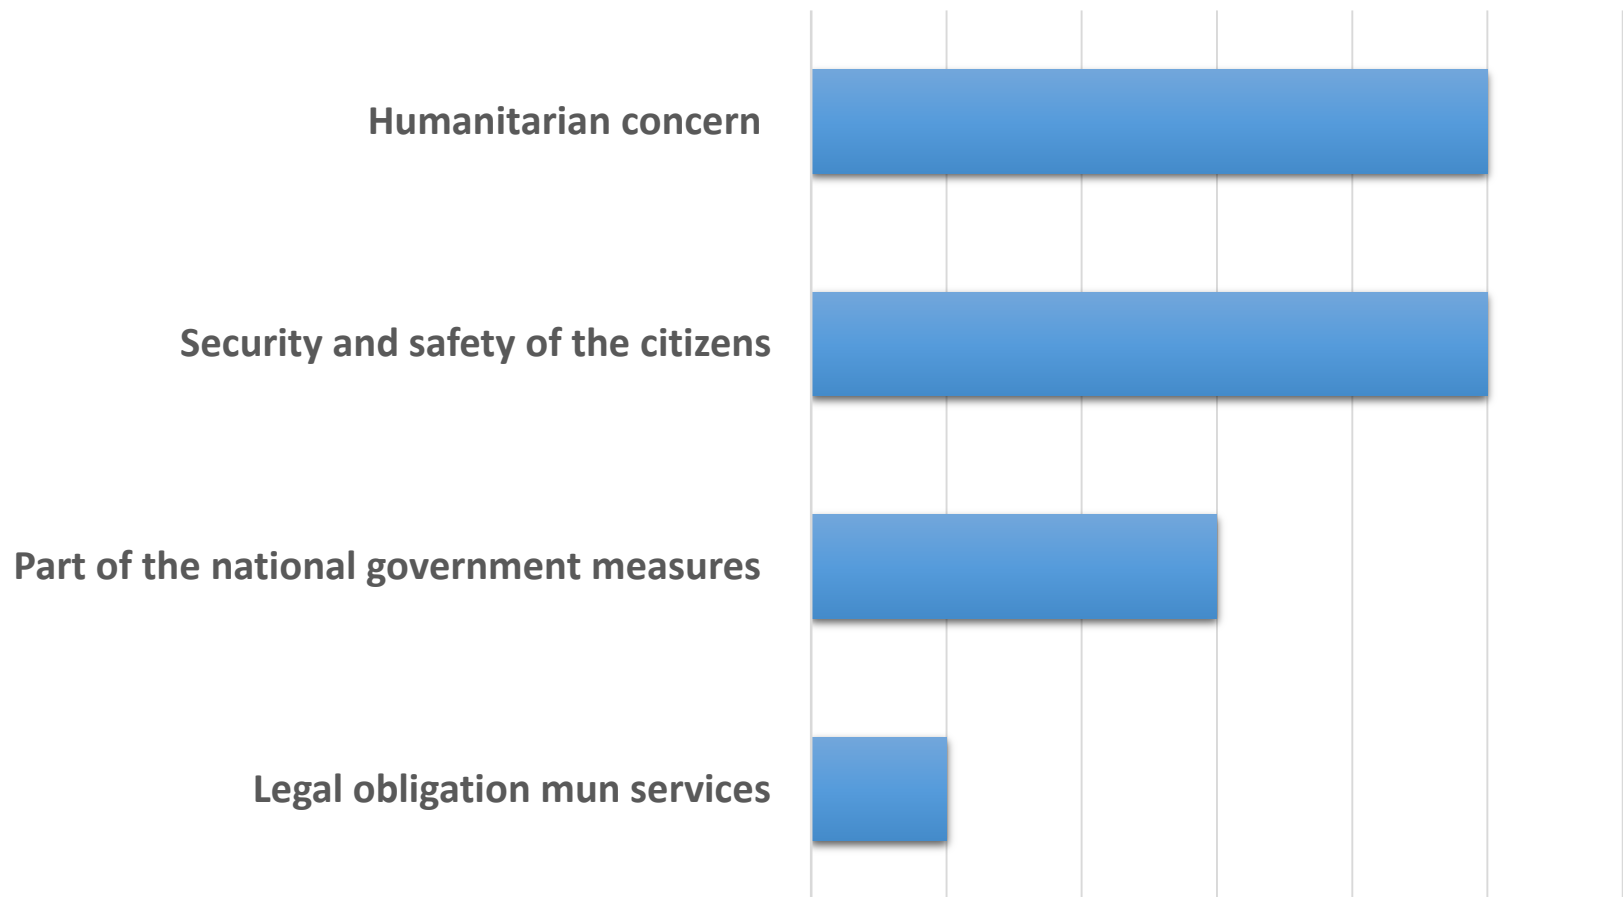

Summary of the main findings
Survey of Local Governments affected by the refugee crisis

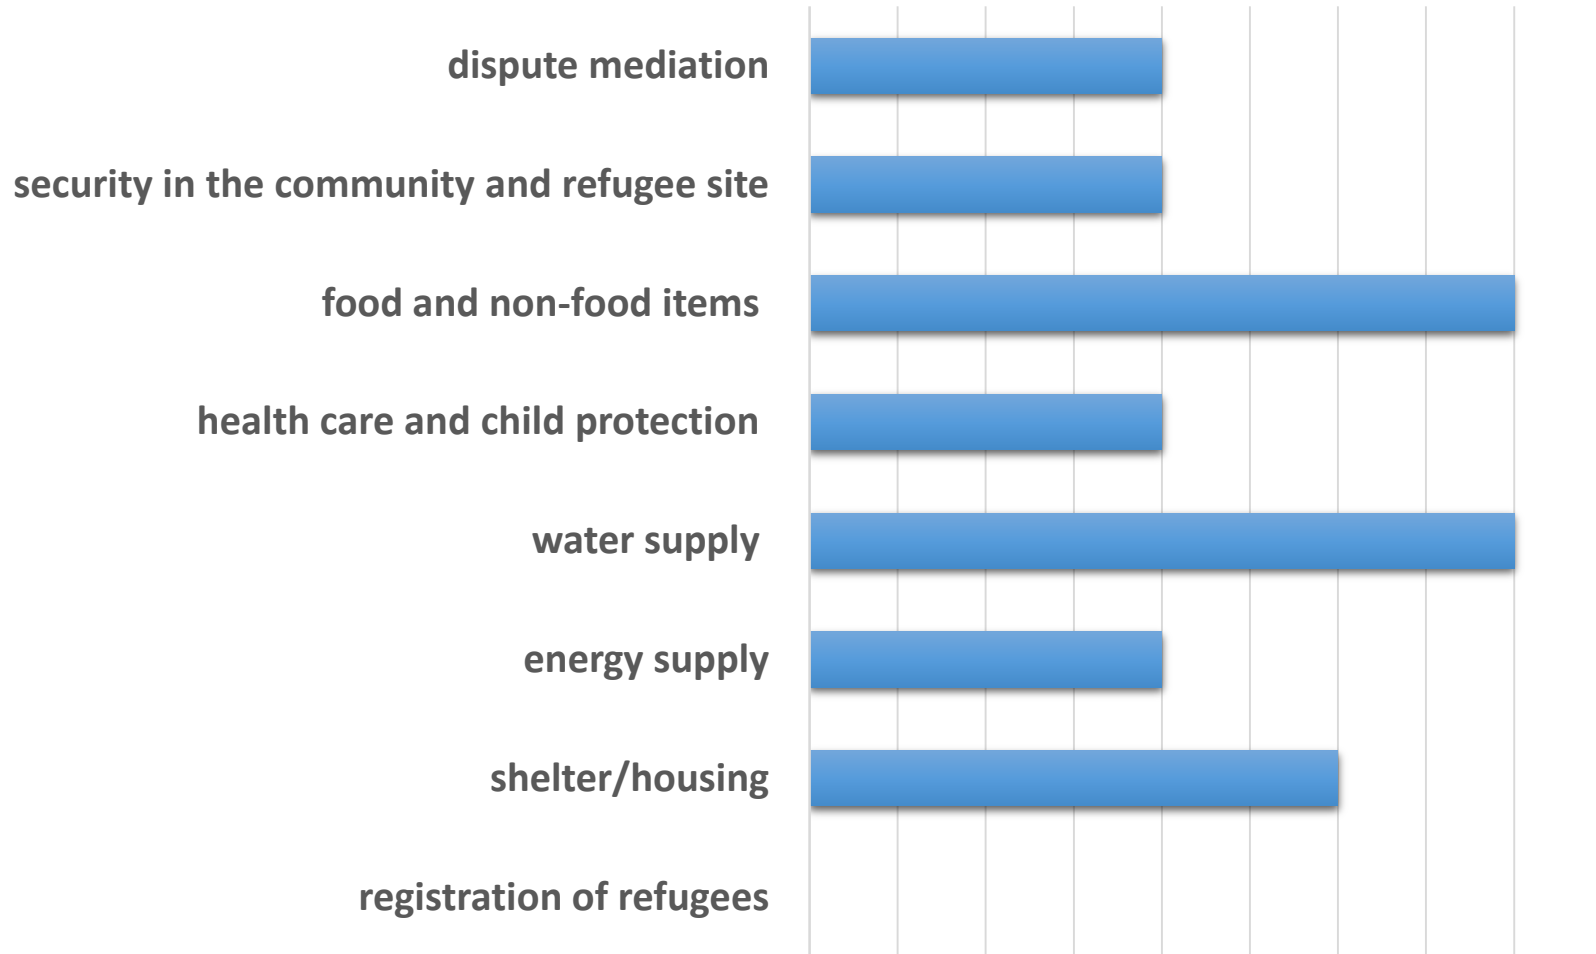

Number of Refugees who Transit or temporarily Settle in the Municipality

basis for municipal responsibility to assist refugees

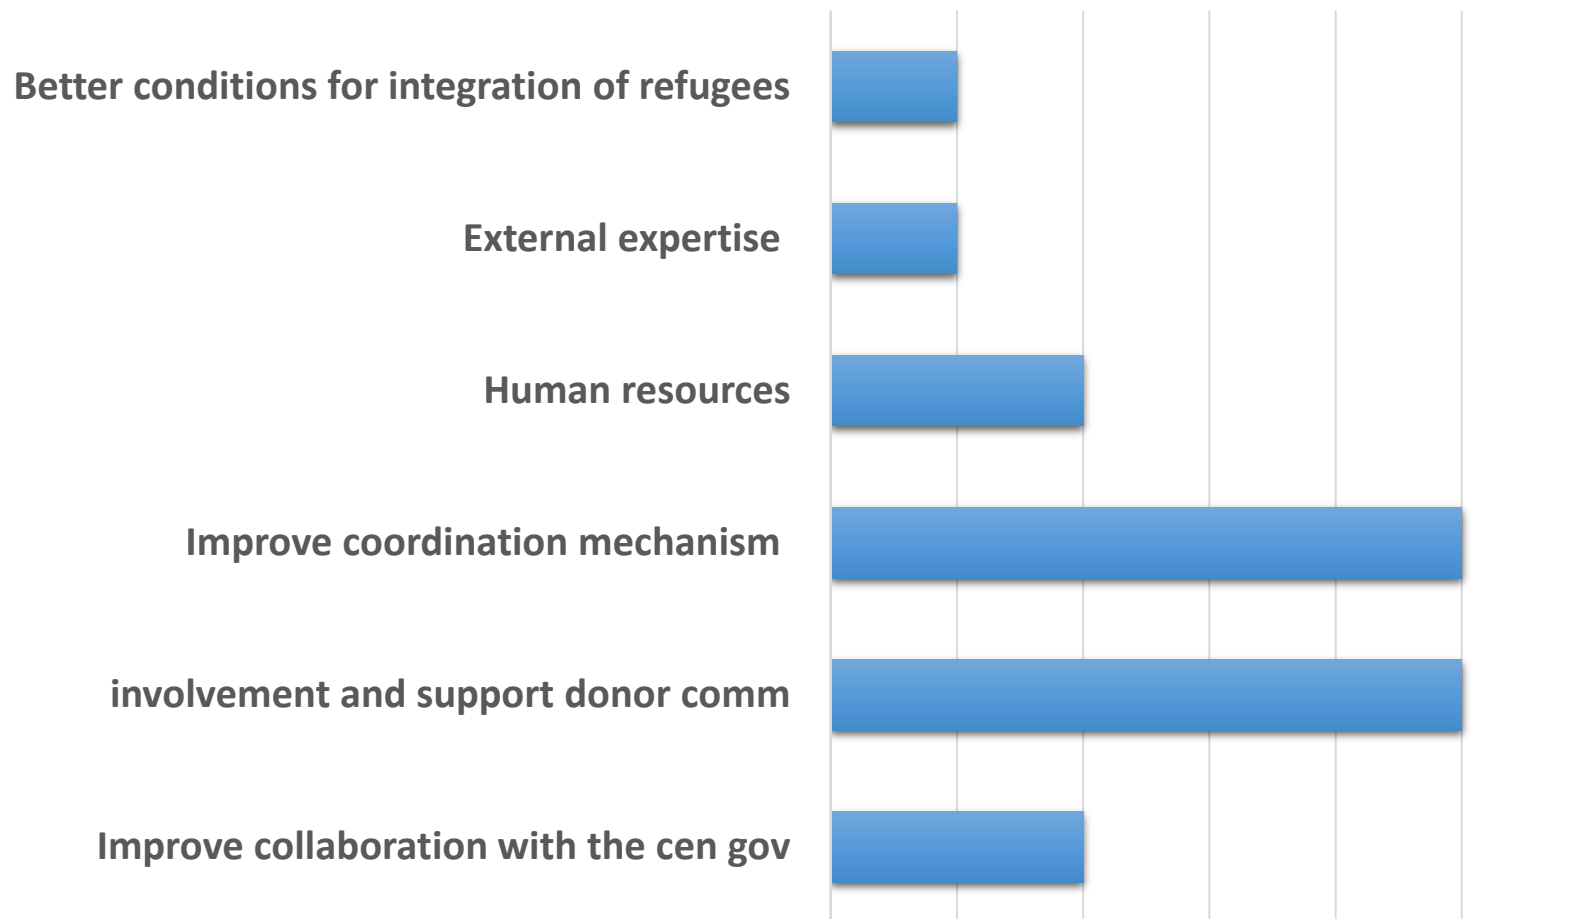

Municipal response (actions) to the refugee crisis

municipal needs to better cope with the refugee crisis

- Equipment and infrastructure for **Water Supply and Water Sanitation** at the refugee temporary shelter site
 - Drinking water supply line, vehicle for cleaning sewerage systems, reconstruction of collection well
 - Water supply system, well (new water source at the sight), sanitation system
- Equipment and infrastructure for **Solid Waste Management** at the site of refugee temporary shelter
 - Truck for SW collection, containers/bins, tractor, bulldozer

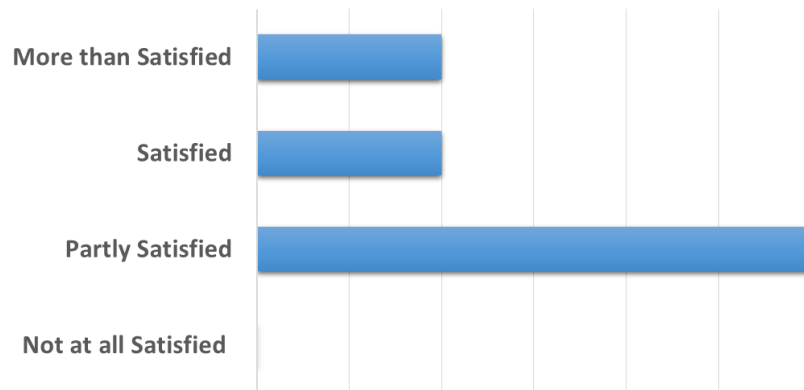

municipal needs to better cope with the refugee crisis (2)

the role of the LGAs in supporting the affected municipalities

- legal and professional advice
- **coordination** among the central government, municipalities, NGOs and donors,
- to assist municipalities and provide expert support,
- to provide support in the international arena and become active in the promotion of activities which are already carried out

support provided by the central government institutions

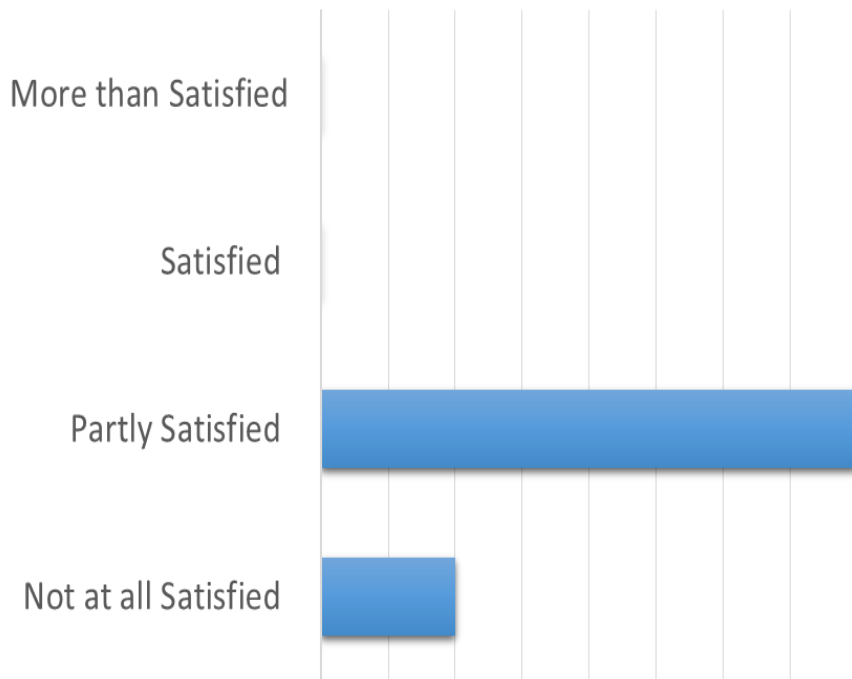

- Financial support
- Food and water
- Besides the security of state border the Army engineers provided help in works for road to access the location and build a fence for the camp
- Police ensured the security and control
- Establishment of temporary shelters

What should be the role and support provided by the national government institutions

- financial support and management of refugee camps
- food and non-food items
- communication and information sharing. Ensure involvement of LGs into decision making process related to integration and socialization of refugees/asylum seekers.

support provided by the international donors

- food, tents, furniture, baby and mother packs.
- provision of infrastructure for the refugee camp (provided water, electricity, hygiene conditions)
- covered costs for reconstruction of facilities of refugee centers.

What should be the role and support provided by the international donors?

- Provide more substantial financial support
- Supply with food and non-food items,
- equipment and infrastructure for Water Supply and Water Sanitation and for Solid Waste Management
- Health protection (medical supplies, surgical supplies, medicines etc.)
- Social care and education
